2. Of these names, the following men are, in our opinion, worthy of the highest honours:

Kristian Fougner.  
Einar Johannessen.  
Hugo Munthe-Kaas.  
Atle Svardal. ✓  
Eivind Viken.

Both the latter on their return from Norway.

3. In our last list of special recommendations, we regret the omission of COMMANDER GABRIEL SMITH. As you are aware, his original station, "Beta", is still one of our most important sources of information; and the members of this organisation still working in Norway are worthy of the very highest praise.
